Percent of youth with IEPs graduating from high school with a regular diploma

Graduation Rate for IEP Students

Formula:

Graduation Rate of Students with Disabilities (IEP) =

$$\frac{\text{Number of IEP Graduates}}{\text{Number of IEP Graduates} + \text{Total IEP Cohort Dropouts}} \times 100$$
 where

Total Dropouts includes received certificate; reached maximum age; moved, not known to be continuing; and dropped out

SPP 4A

Percent of districts that have a significant discrepancy in the rate of suspensions and expulsions of greater than 10 days in a school year for children with IEPs

**Districts with Significant Discrepancies in
Suspension/Expulsion Rates**

Formula:

Percent =

(Number of districts identified by the State as having significant discrepancies in the rates of suspensions and expulsions of children with disabilities for greater than 10 days in a school year/Number of districts in the State) x 100

Notes:

Districts are identified using a risk ratio of the discipline rate for students with disabilities to the discipline rate of nondisabled students. A district with high ratios for two consecutive years would be considered to have a significant discrepancy in suspension/expulsion rates.

DISCIPLINE

SPP 4B

Percent of districts that have: (a) a significant discrepancy, by race or ethnicity, in the rate of suspensions and expulsions of greater than 10 days in a school year for children with IEPs; and (b) policies, procedures or practices that contribute to the significant discrepancy and do not comply with requirements relating to the development and implementation of IEPs, the use of positive behavioral interventions and supports, and procedural safeguards

**Districts with Significant Discrepancies in
Suspension/Expulsion by Race/ Ethnicity**

Formula:

Percent =

(Number of districts identified by the State as having significant discrepancies in the rates of suspensions and expulsions by race ethnicity that had noncompliant policies, procedures or practices contributing to the discrepancy/Number of districts in the State) x 100

Notes:

Districts are identified using a risk ratio of the discipline rate for students with disabilities to the discipline rate of nondisabled students, by race/ethnicity. A district with high ratios for two consecutive years would be considered to have a significant discrepancy in suspension/expulsion rates.
